EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Laura N. Tunnell on June 23, 2006.

The application has been amended as follows:

In claim 5, line 2, replace "dense, tightly woven, elongate flexible core" with -- core made from a braided rope or plastic material,--.

In claim 5, line 4, before "loop attached, delete "flexible".

2. The following is an examiner's statement of reasons for allowance:

3. The Amendment submitted on May 18, 2006, has been entered. Claims 1 – 4 have been cancelled. Claim 5 has been added. Therefore, the pending claim is 5.

4. The prior art fails to teach or fairly suggest a toe towel comprising a braided or plastic core wrapped with a tubular member attached to a loop on at least one end. While Shapiro (6,340,026) discloses that the towel can be a tubular shape, Shapiro fails to teach having a separate material wrap the tubular core, the towel is made from a single component and Shapiro teaches that the material cannot be made from a material having braids or seams. Therefore, claim 5 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
